

**Internship Opportunity: Electronics - Circuit Design and Device Fabrication****Company:** Accubits Invent Pvt Ltd**Location:** Bio360 Life Sciences Park, Thonnakal, Thiruvananthapuram, Kerala**Duration:** 2-3 Months, *Paid Internship***About Us**

Accubits Invent is a translational research and product development company focusing on Medical Devices, IoT, and interdisciplinary projects in Biomedical and Material Sciences. Established in 2020, our mission is to harness technology for the betterment of humanity.

We are looking for an Electronics & Communication Engineering Intern with a passion for circuit designing and device fabrication. This is a unique opportunity to work on cutting-edge projects and gain valuable industry experience in a dynamic, collaborative environment.

Key Responsibilities

- Assist in the design, development, and testing of electronic circuits and systems.
- Collaborate with teams on various IoT and sensor device projects.
- Participate in brainstorming sessions to generate innovative ideas and research new technologies.
- Troubleshoot and resolve technical issues related to hardware components.
- Document design specifications, testing results, and progress.

Who can Apply

- Recent graduate or fresher with a background in Electronics and Communication Engineering.
- Strong interest in circuit design and IoT technologies.
- Basic knowledge of electronic components, circuit design, and testing procedures.
- Excellent problem-solving skills and attention to detail.
- Ability to work independently and collaboratively.
- Must be a resident of Trivandrum or willing to relocate to Trivandrum.

Why Join Us?

- Paid internship for a 2-3 month period, with a possibility to extend.
- Get hands-on experience on cutting-edge projects and work directly with experienced researchers.
- Enhance your skills in circuit design, device fabrication, and IoT development.
- Opportunity for future full-time employment based on performance.
- Mentorship from experienced professionals and networking opportunities within the industry.

Preferred Candidates:

Residing within a commutable distance from our [campus](#) at Bio360 Life Sciences Park, Thonnakal, Thiruvananthapuram.
